# Emil Adishirinov

## Full Stack Developer 2+ years

Greetings! I'm Emil a dynamic FULL STACK DEVELOPER with a rich toolkit in JavaScript & TypeScript with 2+ years of experience

## Experience

### 2024-Present

#### Datalent & <https://datalent.az/tr/>

I'm a Full Stack Developer specializing in Next.js for the frontend and Node.js for the backend, with a focus on MongoDB as the database. I implement caching solutions using Redis to optimize performance. Additionally, I containerize applications using Docker and manage continuous integration and continuous deployment (CI/CD) processes to ensure efficient and reliable software delivery.

### 2023-Present

#### Brolve

I specialize in developing sophisticated e-commerce platforms using Next.js for seamless and dynamic frontend experiences, coupled with Node.js for robust backend services. My expertise includes integrating MongoDB for scalable and efficient data management. I focus on creating intuitive and engaging user interfaces that drive conversions and enhance the shopping experience. By employing advanced design patterns and implementing best practices, I ensure that the e-commerce solutions are both performant and secure. My projects are designed to scale effortlessly, providing a solid foundation for growing businesses and adapting to evolving market demands.
